We work in small, highly qualified teams with specific industry and functional expertise, and we operate at pace, moving quickly from analysis to implementation. We stand shoulder to shoulder with our clients until the job is done, and only measure our success in terms of the results we deliver.

**The global restructuring and insolvency team**

With teams in the financial hubs of Europe, the Middle East, Asia, Australia, Latin America and North America we understand the legal, regulatory, political and business landscapes involved when a company gets into financial difficulties. We are renowned for our collaborative and pragmatic attitude and our solutions-based approach to transactions – and for our exceptional commitment to clients. We advise the full spectrum of stakeholders in restructuring and insolvency cases including senior and junior secured and unsecured creditors; creditor committees; distressed borrowers; shareholders; directors; suppliers and insolvency practitioners. We also advise less traditional stakeholders including pension trustees and governmental and quasi-governmental bodies. This gives us strong practical experience of the different technical and commercial issues facing these stakeholders, their interrelationship with the more traditional players in a restructuring or an insolvency and the drivers for their behaviour in such situations.

To ensure each matter has the right team, we draw on experienced lawyers from other practice areas including capital markets, litigation, real estate, employment, intellectual property, tax, and pensions to add to the core restructuring team for that matter. In this way we offer clear, concise and practical advice to cover all the challenges a particular transaction might present.

During times of financial stress, businesses need experienced, effective and efficient legal counseling. This is true on both the debtor and creditor side of restructurings, insolvencies, corporate reorganizations and other challenging events. For decades, businesses throughout the country have turned to Pepper’s Corporate Restructuring and Bankruptcy Group for that critical advice and counseling.

Pepper provides corporate, litigation and regulatory legal services to leading businesses, governmental entities, nonprofit organizations and individuals throughout the nation and the world. While our practice is diverse, we operate as a unified firm, using our size, breadth and depth of talent to assist our clients. Pepper’s practice areas encompass nearly all areas of law, and continue to expand as the firm and its clients grow.

Corporate Restructuring and Bankruptcy Practice

Our practice is national in focus, appearing regularly in bankruptcy courts throughout the country, including New York and Wilmington, Delaware — favored venues for large, complex bankruptcies. We are experienced in insolvency matters involving a wide range of industries, with particularly notable experience in the food, retail, energy, construction, manufacturing, health care and automotive industries. Our clients include large national and international public and privately held corporations, as well as governmental entities, official committees and individuals. We also have substantial experience representing foreign representatives in securing recognition of foreign insolvency proceedings under Chapter 15 of the U.S. Bankruptcy Code.

Debtor and Creditor Representation

Our representation includes advice on all aspects of Chapter 11 and Chapter 15 proceedings, as well as out-of-court restructurings, recapitalizations and pre-negotiated workouts.

On the debtor side, we assist financially troubled corporations and other business entities with evaluating options and negotiations with creditors. We help enterprises with asset sales, financing, debt restructuring, valuation, corporate governance and other issues that affect maximizing value for the client.

On the creditor side, we represent official and unofficial creditors’ committees, trade creditors, lenders, debtor-in-possession financiers, indenture trustees, hedge funds, bondholders, government entities and others. We assist committees and creditors in assessing the valuation and solvency of debtors, the validity of financing and restructuring strategies, the liens and claims of secured creditors, and other issues critical to maximizing value for creditors. We also frequently represent entities interested in acquiring troubled companies or their assets.

Bankruptcy Litigation

Our group includes seasoned trial lawyers experienced in handling complex restructuring litigation. Pepper served as Special Bankruptcy Litigation Counsel for the City of Detroit in the largest municipal restructuring in U.S. history.

International law firm Weil, Gotshal & Manges LLP has approximately 1,100 attorneys in 16 offices in the United States, Europe, and Asia. Headquartered in New York City, it maintains offices in Beijing, Boston, Dallas, Frankfurt, Hong Kong, Houston, London, Miami, Munich, Paris, Princeton, Shanghai, Silicon Valley, Warsaw and Washington, DC.

Weil’s elite status among international law firms owes greatly to the extraordinary balance it maintains, both in its geographic reach as well as its diversity of practice areas. The firm’s clients span the broad range of industries on a global basis. This diversity of legal disciplines and geographies leads to a highly collaborative firm culture where client relationships span several offices and practice groups, enabling the firm’s lawyers to develop and perfect specialties to address and resolve complex legal problems from a broad, interdisciplinary perspective.

The firm’s global crisis management and restructuring work serves as an excellent illustration of Weil’s ability to help clients face the most complex, high-profile challenges in a changing marketplace. The firm’s work in this area covers novel legal challenges brought about by the changing financial paradigm and includes cross-border and multijurisdictional insolvency issues in connection with global banking and manufacturing concerns; assisting private equity sponsors and hedge funds in managing and/or restructuring portfolio companies; distressed investing; a cutting-edge, industry-leading practice in unwinding derivative transactions on behalf of bankrupt entities; and negotiating with government and regulatory authorities on behalf of troubled companies. Weil’s approach to these challenges is framed by interdisciplinary teams customized to address each client’s particular issues, drawn from nationally and globally recognized practices in Bankruptcy/Restructuring, Securities Litigation, Corporate Governance, Structured Finance, M&A/Private Equity, Banking & Finance, and SEC Regulatory and Compliance, and intimate knowledge of, and ongoing involvement with, the financial instruments at issue, including asset-backed securities (ABS), collateralized debt obligations (CDOs), credit default swaps (CDSs), structured investment vehicles (SIVs), and collateralized loan obligations (CLOs).

**Business Finance & Restructuring Department**

Referred to by The American Lawyer as the standard of the bankruptcy bar, Weil’s Business Finance & Restructuring Department is considered a leader in the world and maintains a significant presence in the firm’s U.S. and European offices. The firm’s lawyers counsel a uniquely wide range of constituencies, including debtors, creditors, equity holders, committees, and potential purchasers of troubled companies or their assets. In addition to its preeminent position in assisting troubled companies, Weil’s restructuring lawyers have advised several nations seeking to develop sophisticated laws governing insolvency and restructuring.

In 2018, Weil was involved in 10 of the largest bankruptcies filed in the U.S. and continues to lead with an exemplary track record in 2019. Weil is currently representing PG&E Corporation and its affiliates in their chapter 11 bankruptcy filing – the sixth largest bankruptcy filing in history and the largest filing of 2019. Weil is also representing the second largest filing, Ditech Holding Corporation, which was the first time in the United States that relief provided under a plan of reorganization for the transfer of assets provided that the sale of consumer contracts shall be free and clear of claims subject to section 363(o) of the Bankruptcy Code. Most recently, Weil completed its representation of Synergy Group Holdings B.V. in its landmark, cross-border balance sheet restructuring – which is perhaps the first-ever use of an English scheme to restructure debt issued by a U.S.-based global enterprise. Another example of Weil’s innovation is exhibited in our representation of Ambac Assurance UK Limited (AUK), in its capacity as a financial guarantor and Directing Party in a U.S. chapter 15 proceeding. Also, Weil represented Sears Holdings Corporation in its successful chapter 11 bankruptcy filing – the second largest filing of 2018 and one of the most significant retail restructurings in history.

Weil has also represented debtors in some of the largest global insolvencies, including: CHC Group, Ltd.; China Fishery Group Limited; Claire’s Stores; Edcon; Fieldwood Energy; Takata Corporation; Ukraine’s $18 billion Sovereign Restructuring; and Westinghouse Electric Company.
